*~ Defiant ~*

Each day we lift the veil of self deception... or walk in darkness covered by it.

Defiant is the story of one man's fight with God. For years, he's been able to justify and explain everything in his world but when God meets him right where he is, he finds himself back pedaling.

His excuses no longer stand up and he must take a close and painful look at himself; however, even after being confronted with the truth, he still clings defiantly to his old way of life. He turns from God and runs back to what is comfortable and paints a picture of himself

It is not long before his experience with God consumes his thoughts and he becomes overwhelmed with his own sin. He sees himself covered by it and falls apart. Suffering under the weight of his imperfection, he sees only one answer: Jesus' death on the cross is his only salvation.
